PAID RESEARCH OPPORTUNITIES FOR UNDERGRADUATES

The University of Washington (UW) Departments of Medicinal Chemistry, Pharmaceutics, Pharmacology, and Microbiology are pleased to announce the 2022 Equity and Excellence in Pharmacological Sciences (UW-EEPS) program.

UW-EEPS provides research opportunities for undergraduate students who are:
- Thinking about graduate school in the pharmacological or biomedical sciences
- Committed to enhancing equity and inclusion in the sciences
- Looking to gain hands-on research experience in areas of the basic biological and physical sciences such as:
  - drug metabolism
  - pharmacokinetics
  - cellular and molecular pharmacology
  - molecular biophysics
  - microbiology

UW-EEPS hosts undergraduate students selected from a national pool of applicants as well as those enrolled at the UW. Participants benefit from intensive research experience, close mentorship, and professional development activities. Participants will receive a generous stipend, food allowance, paid accommodations, and (if necessary) a transportation allowance for travel to & from UW Seattle.

Program dates are June 21 - August 19, 2022. Seattle-area participants may have the option to extend their research experiences on a case-by-case basis.

The application deadline is March 27, 2022.

The University of Washington welcomes applications from all eligible students, including members of communities underrepresented in the pharmacological sciences due to factors including (but not limited to) race, ethnicity, mental or physical disability, socioeconomic background, 1st generation college student status, sexual orientation, or gender identity.
