

PHARMACOLOGY FRIDAY FEBRUARY 20, 2026

Pharmacology Services and Equipment

- The new Dishwasher and Autoclave in E-427 has a new keypad entry. The code is 0916.
- The ice machine in K-510 has died. Please use the machine in K-310 until we can get a replacement installed.

Changes to Duo

Starting **March 3, 2026**, Duo Mobile Push will require a 3-digit code for most UW logins. Early awareness and preparation will help reduce disruptions to clinical workflows and patient care.

If you already receive Duo Mobile Pushes on a device, no action is needed – the change will be automatic. Review the new login experience to prepare.

Upcoming Events
