

PHARMACOLOGY FRIDAY JANUARY 2, 2026

Message From UW Pharmacology Chair

Dear Friends and Colleagues:

I wish you all a happy, prosperous, and productive 2026! As we welcome a new year, let's take a moment to appreciate the hard work and achievements of our students, staff, and faculty. I'm incredibly proud and grateful to have the chance to work with such a talented and innovative group of scientists. Sure, the future may be a bit uncertain, but remember that we're stronger and more capable when we stand together and work as a team to advance the science of UW Pharmacology. Let's celebrate graduations, publications, and new positions for our trainees, as well as career advancement for our students, staff, and faculty. It's an honor and a privilege to serve as the Chair of UW Pharmacology.

John D. Scott FRS

Edwin G. Krebs-Speights Professor of Cell Signaling and Cancer Biology
Chair, Department of Pharmacology
