

PHARMACOLOGY FRIDAY JULY 31, 2026

Liquid Nitrogen Dewars and -80°C Freezer Racks Available for Pickup

As part of the Catterall lab cleanup, we have three liquid nitrogen Dewar tanks available for anyone in the department who could use them before they are sent to Surplus.

The Dewars are located in F419, and each still contains approximately half a tank of liquid nitrogen, so they are ready for immediate use.

We also have eight metal storage racks for -80°C freezers available for anyone who could use them.

If you are interested in any of these items, please contact @ [Marta Trzeciak](#) to arrange pickup before they are transferred to Surplus.

Share Your Purchasing Feedback

Thank you to everyone who has shared questions, concerns, and suggestions related to purchasing, invoicing, payments, and receiving. Your feedback helps us identify opportunities for improvement. Because we meet with the FinOps Team every other week, we welcome your input and will share your feedback on your behalf. Please send comments or questions to [Angie Mullen](#).

Upcoming Events

August 15, 2026: Hazing Prevention Training Deadline

September 24, 2026: Pharmacology Retreat
